NOT INCLUDED

- Content, Data and Commerce Hub (added at their own prices)

You provide

- A project owner with decision authority

Assumptions

- Delivered remotely, in English

Done means: Each Hub's Foundation acceptance met.

COMMON QUESTIONS

Why buy the bundle instead of one Hub at a time? Three Hubs implemented together share one data model, one kickoff and one training plan, so they cost less and work together from day one. The bundle is \$18,000 against \$22,500 for the three Foundation packages bought separately.

Standard on every package. Every Launch package includes a named senior consultant from kickoff to go-live, a written project plan, weekly status, build and test in a sandbox where the platform has one, one UAT cycle, admin documentation, recorded training and 30 days of hypercare. Never included: software licenses, custom code unless listed, integrations not named, content beyond the numbers listed, legal or compliance approval, on-site work and travel.
