Up to 3 integrations or 1 API-led set
WHAT'S INCLUDED

- Everything in Starter
- Up to 3 integrations, or 1 full API-led set (1 System, 1 Process, 1 Experience API)
- Scheduled and event-driven patterns; dead-letter handling
- Assets published to Exchange for reuse
- 2 admin/developer sessions
- Runbook and Phase 2 backlog

NOT INCLUDED

- Private Space unless required (then quoted)
- CI/CD pipeline
- Developer workshop
- More than 3 integrations
- MuleSoft subscription and Mule Credits

You provide

- Business owner and technical contact
- Sandbox credentials for each in-scope system

Assumptions

- Delivered remotely, in English

Done means: Each integration passes agreed test cases in production; Exchange assets published.

COMMON QUESTIONS

What is the difference between Connect and Platform? Connect delivers up to three integrations, or one API-led set, on the shared space. Platform adds the architecture blueprint, Private Space and networking, CI/CD and a developer workshop so your own team keeps building.

Standard on every package. Every Launch package includes a named senior consultant from kickoff to go-live, a written project plan, weekly status, build and test in a sandbox where the platform has one, one UAT cycle, admin documentation, recorded training and 30 days of hypercare. Never included: software licenses, custom code unless listed, integrations not named, content beyond the numbers listed, legal or compliance approval, on-site work and travel. **Pairs with:** Pre-Purchase, or first-year Pre-Commit.
