

MULESOFT · ENTERPRISE

MuleSoft Platform

An API-led foundation your team keeps building on: architecture standards, Private Space, CI/CD, credit governance and a two-day developer workshop.

PRICE
From \$55,000
TIMELINE
6-8 weeks
SIZED FOR
2-3 System, 1 Process, 1 Experience API
WHAT'S INCLUDED

- Architecture blueprint, API-led standards and naming conventions
- Private Space and network connections where required (static IPs, VPN, transit gateway)
- 2-3 System APIs, 1 Process API, 1 Experience API
- CI/CD pipeline (GitHub Actions or Jenkins with the Mule Maven plugin)
- Credit governance by team, environment and cost center
- 2-day hands-on developer workshop

NOT INCLUDED

- More APIs than listed
- Ongoing development (see the MuleSoft Retainer)
- MuleSoft subscription and Mule Credits

You provide

- Network details and cloud account access for the Private Space
- Developers for the workshop

Assumptions

- Delivered remotely, in English

Done means: APIs in production; pipeline deploys to each environment; workshop delivered.

COMMON QUESTIONS

Why is Platform a “from” price? The number of APIs, the networking your Private Space needs and the size of the developer team all move the effort. The published price buys the scope listed here; we confirm the final figure after a short architecture review.

Standard on every package. Every Launch package includes a named senior consultant from kickoff to go-live, a written project plan, weekly status, build and test in a sandbox where the platform has one, one UAT cycle, admin documentation, recorded training and 30 days of hypercare. Never included: software licenses, custom code unless listed, integrations not named, content beyond the numbers listed, legal or compliance approval, on-site work and travel. **Pairs with:** Pre-Commit, \$50,000/yr.
