Assumptions

- In-scope systems expose APIs or supported connectors
- Shared space meets network needs

Done means: Integration runs in production for 5 business days within agreed error thresholds; dashboard and alerts live; runbook delivered.

COMMON QUESTIONS

How much does a MuleSoft implementation cost? Starter is \$12,500 fixed for the platform setup plus your first production integration, in two weeks. Connect is \$22,500 for up to three integrations or a full API-led set. Platform, an API-led foundation with CI/CD, starts at \$55,000.

Which MuleSoft plan does Starter pair with? Starter is sized for MuleSoft's Pre-Purchase plan, which starts at about \$2,000 a month in Mule Credits, so you can prove the first integration inside the free-trial window before the order form is signed.

Standard on every package. Every Launch package includes a named senior consultant from kickoff to go-live, a written project plan, weekly status, build and test in a sandbox where the platform has one, one UAT cycle, admin documentation, recorded training and 30 days of hypercare. Never included: software licenses, custom code unless listed, integrations not named, content beyond the numbers listed, legal or compliance approval, on-site work and travel. **Pairs with:** MuleSoft Pre-Purchase, from \$2,000/mo.
